"Department Buyers'" First Fall Special Bargain Sale

Begins Saturday, October 10

This sale will be of unusual interest; don't have one like it very often, wouldn't now if conditions were normal. Each department buyer will endeavor to start the season's selling with " special" bargain prices as will not be attempted again until the close of the season. The large stocks purchased, and in this store at the present time, must be moving—the continued warm weather, has retarded the selling, must make it an object for your buying now, warm weather or not. Our Department buyers have taken the question up in their own interests, and will make such low prices on new Fall stocks as will not occur again until the end of the season, and then only what is left. The established reputation of this house for "just as advertised" will convince you that items mentioned here are worthy your IMMED-IATE attention on Saturday morning. This Sale is not for all the stock in the store, only a limited quantity of these new goods will be sold at the cut prices for this event only. We expect a crowd, ought to have it at the prices named. Think the Fall selling will surely

Money--Risk

The newspapers almost daily contain accounts of robberies and it is usually money that the robbers are after and get. They know that people fearing that financial institutions are not sound, are withdrawing and hoarding their savings. Just recently a couple near Canton who used a tile opening in the cellar for a bank tound several hundred dollars of their savings gone. Such instances are many, and while it is impossible to estimate how much hoarded money is lost, destroyed or stolen, yet it is safe to say that it far exceeds all the money lost by the failure of financial institutions.
